God is in The T.V. Fanzine - United Kingdom. 2005

"Ill Starred captain is what happens when the white Stripes, start sounding like White Album-era Beatles".

Southscene review - United Kingdom. 2005

Ill Starred Captain cranks things up with 'Yeh Nah' track 'Trouble'. For fans of all things Sub Pop. Nicotine stained vocals (think Mark Lanegan) and bar room style off kilter country grunge rock. Or something like that!

Port Lincoln times – Natasha Ewendt 2005

'Yeh - Nah' is rhythm - rich, but also has a pastoral sound with spacious moments, as well as funky morsels and cool lyrics.
